

## Contents

<b>Alexander BOLOTOV, Vladislav NOVIKOV, Olga NOVIKOVA and Fares ABU-ABED:</b> Theoretical and experimental evaluation of the properties of antifriction diamond-containing ceramics in a wide range of loads	<b>285</b>
<b>Silvie BROŽOVÁ, Denisa ORLOVÁ, Jiří BROŽ, Aleš SLÍVA, Ján DIŽO, Adéla MACHÁČKOVÁ, Daniela MARASOVÁ, Lumír HRUŽÍK, Peter BINDZÁR and Gražyna SIMHA MARTYNKOVÁ:</b> Selective separation and recovery of copper from industrial waste by leaching	<b>297</b>
<b>Szymon MORAWSKI, Andrzej GAWLIK, Marcin RABE, Agnieszka ŁOPATKA, Agnieszka ASTAPCZYK, Jarosław KORYSA and Jolanta WITEK:</b> Design of a hybrid renewable energy installation with energy storage for a selected farm	<b>309</b>
<b>Laima OKUNEVIČIŪTĖ NEVERAUSKIENĖ, Dominykas LINKEVIČIUS and Manuela TVARONAVIČIENĖ:</b> Visegrad Region Dependency on Mining Industries: Impact of Raw Material Prices on Housing Prices and Investments	<b>320</b>
<b>Mehmet ÇİVELEK, Ivan BREZINA, Radim MAŇÁK, Ľudovít HAJDUK and Tomáš VRÁTNY:</b> The Importance of Risk Management and Marketing Innovation Activities of Firms During Health, Political, Energy, and Economic Crises	<b>332</b>
<b>Marcel BEHÚN, Gabriel GALGÓCI, Filip GLOVA and Annamária BEHÚNOVÁ:</b> Implementation of Circular Economy Principles in the Local Government Environment	<b>347</b>
<b>Monika BURGHAUSEROVÁ, Yelyzaveta APANOVYCH and Jindřiška VITVAROVÁ:</b> Factors Influencing the Divergence of Precious Metals Prices: The Case of Gold in 2024	<b>357</b>
<b>Zuzana SÁGOVÁ, Tanyana Nikolaevna IVANOVA, Aleksander Ivanovich KORSHUNOV, Pavol BOŽEK and Vladimir Pavlovich KORETCKIY:</b> Analysis of complications and proposal of measures to prevent adverse events during drilling activities	<b>373</b>
<b>Marcin KARABIN, Wojciech OSTROWSKI, Magdalena PILARSKA-MAZUREK, Magdalena KARABIN-ZYCH and Robert ŁUCZYŃSKI:</b> Research on the possibility of using DJI Matrice 300 RTK with a Zenmuse P1 camera and DJI Mavic 3 Enterprise in work related to obtaining geometric data about buildings for the purpose of updating real estate cadaster and topographical database records	<b>383</b>
<b>Tomasz ROKITA, Magdalena ROKITA, Paweł KAMIŃSKI and Dariusz PROSTAŃSKI:</b> Examination of hoist drum lining	<b>396</b>
<b>Vladimir DEMIN, Aila ZHUMABEKOVA, Vitaliy ZHUROV, Denis BELOMESTNY and Arman KAINAZAROV:</b> Study and rationale of tectonic fault crossing technology parameters by the mine face of a preparatory mine excavation	<b>407</b>
<b>Adil OZDEMIR and Ekrem KALKAN:</b> Preliminary Findings for A New Iron Mineralization in the Central Anatolian Iron Province (Turkiye) and An Approach to the Genesis	<b>421</b>
<b>Edita LAZAROVÁ, Vít'azoslav KRÚPA, Mária BALI HUDÁKOVÁ, Alexander KIOVSKÝ, Pavol VAVREK and Lucia IVANIČOVÁ:</b> Experimental investigation of specific energy and wear intensity of diamond-impregnated core bits in rock drilling	<b>432</b>

<b>Muhammad WAQAR HASSAN, Anna MANOWSKA and Thomas KIENBERGER:</b> Forecasting of Wind Speed and Power for Poland Using Prominent Variants of FFNN Tuned Through MHPSO-BAAC-x	<b>441</b>
<b>Akbar CHESHOMI, Ali SADEGHI and Neda GHOLAMHOSSEIN ZADEH:</b> New Criterion for Shutter Designing by Dry Pluviation Method	<b>458</b>
<b>Javid HUSSAIN, Nafees ALI, Xiaodong FU, Jian CHEN, Naveed Ahmed KHAN and Sartaj HUSSAIN:</b> Leveraging Artificial Neural Networks to Predict Igneous Rock Strength Parameters from Petrological Contents	<b>470</b>
<b>Farhat ULLAH, Rehan KHAN, Asad MUHAMMAD, Ihtisham ISLAM, Abdul Rahim ASIF, Qarib ULLAH and Salman KHURSHID:</b> Assessment of Petrographic and Physico-Mechanical Properties of Granodiorites for Aggregate Usage: A Comprehensive Case Study from Mayar, Dir (Lower), Khyber Pakhtunkhwa Pakistan	<b>492</b>
<b>Rafal MORGA, Katarzyna STANIENDA-PILECKI and Tadeusz MZYK:</b> Assessment of the potential use of limestone based on the examples of the selected deposits from southern Poland	<b>509</b>
<b>Thai Ngoc DO, Anatoliy Grigoryevich PROTOSENYA and Quang Van NGUYEN:</b> Finite element analysis of the twin tunnels-piled structure interaction	<b>526</b>
<b>Yingchun TANG and Yang YANG:</b> Exploration of coal seams intruded by magmatic body using seismic attribute technology	<b>545</b>
